2. Left hand track unit
3. Tractor body
4. Fuel tank
5. Levers
6. Tow bar*

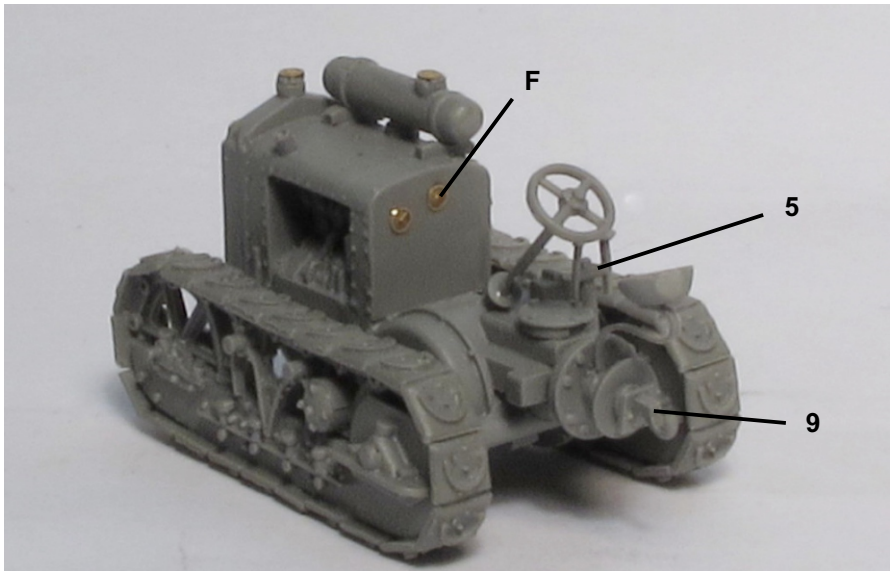

7. Steering column
8. Steering wheel
9. Towing hook
10. Seat support
11. Seat
12. Starting handle

Etched

- A. Seat support*
- B. Engine covers
- C. Engine grille
- D. Engine cover handles
- E. Caps
- F. Dials

*Optional parts

Notes

The track units should be parallel with the body sides and the body top parallel with the ground. The casting lugs on the inside of the track units need to be removed to facilitate this.

Engine covers can be shown closed or open, fit the handles through the slots in the covers and fold the end back to glue in place.

There is an option to use either the resin or the etched seat rest.

Warning : This model contains small parts and fine dust may be produced when cleaning up parts. We recommend that you take suitable precautions to avoid breathing in the resin dust and fumes from the dust and paints.
